

Golf Cart Usage Policy

Effective – March 1, 2010

The Golden State Tour would like to encourage players to walk during the ROEL Series events. But, for the remainder of the ROEL Series, players will be allowed to use golf carts during tournament rounds. Recent discussions with many players have opened the door for this policy change. Carts are now 'optional'.

*This being said, the **Golf Cart Usage Policy** comes with certain usage restrictions and player responsibilities. They are as follows:*

- 1. Golf Carts can be rented (daily) at the player's expense (course fee)*
- 2. Golf Carts are available to the player and caddy only*
- 3. Golf Carts **must** remain on cart path during tournament rounds*
- 4. Golf Cart usage is **NOT** allowed for the player/caddy to drive ahead of their current position of play to 'scout' course layout/hole location, etc.*
- 5. Additional Golf Carts are **NOT** available for rent by any spectator without GST approval*

Breach of this policy will result in golf cart usage being revoked for the remainder of the round, event or series.
